

Abstract submission:

Please submit an abstract (100 - 300 words), before **March 18 2016**.
Send your abstract with the Easychair system.

Link to abstract submission: <https://easychair.org/conferences/?conf=bnam2016>

We welcome contribution in the field of acoustics and sound and vibration. Examples of topics are: building acoustics, environmental noise, room acoustics, noise and vibration control etc. Please use the “Other topics” option when submitting abstracts on these topics.

There are also a number of structured organised sessions welcoming both invited and contributed papers on the topics:

Vehicle noise and vibration

Theory and measurement techniques for sound transmission and reduction

Sound insulation and noise limits for new and retrofitted housing: Subjective aspects, regulatory policies and classification

IC-engine gas exchange acoustics

Models and measurement methods for the acoustics of small rooms

Musical acoustics

Duct Acoustics
