

Dear acoustician,

We are pleased to announce to you the ***EAA platform of benchmark cases for computational acoustics***.

The platform is a brand new initiative from the European Acoustics Association (EAA) to have available benchmark cases (as well as solutions) in the entire field of computational acoustics.

We kindly invite you to contribute to this initiative by submitting relevant benchmark cases in your field or by using the existing benchmark cases.

The platform can be found at the here<<http://eaa-bench.mec.tuwien.ac.at/main/>> and a full description of the benchmark case initiative can be found in our recently published paper<<http://www.ingentaconnect.com/content/dav/aaua/2015/00000101/00000004/art00017>>

We look forward to your involvement!
