

Dear all,

We have the pleasure to inform you that we have released the press information yesterday regarding the transfer of the EAA journal to EDP Sciences and its simultaneous switch to Open Access in January 2020.

The press release is also hosted here on EDP Sciences' website:  
<https://www.edpsciences.org/en/news-highlights/1830-open-access-acoustics-journal-to-be-published-by-edp-sciences>  
[1].

In addition to this, we have announced it via our social media channels on Twitter [2] and LinkedIn [3]. If you have accounts on these media, please do not hesitate to share or like them yourself.

Further to this we have also used more traditional channels to presses intended for science publications, other to librarians and the publishing communities.

Please do not hesitate to indicate us contact information at European national acoustics societies, that are either related to the EAA or not, as well as to the partner societies [4].

If you prefer to directly transfer this information to them, please inform us about this.

We also propose you to post this press release in the news section of the website of the EAA, if you think that this is the appropriate place.

For any further help for distributing these news, please do not hesitate to contact us.

Best regards

Claus
