

e-Forum Acusticum 2020
Dec 7-11, 2020

1990.....

.....2020

Prof. Manell Zakharia
President of the EAA

AA, Your Open ACCESS Journal

1st full Open Access Journal of Acoustics
of a scientific association

e-Forum Acusticum 2020
Dec 7-11, 2020

- A new Journal, new publishing rules and a new Editor in Chief:
 - EiC: Manfred Kaltenbacher,
 - Past EiC: Jean Kergomard,
 - EiC Team: Thierry Scotti, Anne Ruimy
 - + 39 Associate Editors
- A good start:
 - 74 articles submitted
 - In Review (20), Accept (26), Reject (23), Withdrawn (5)
- EAA has set up a specific procedure for supporting Author processing charge for Members of a National Society (already 8 grants given)
- Archives will soon be available on a new EAA portal that will gather:
all what has been published in Europe about acoustics in any EU language

Documenta Acustica Electronica

AA is present at FA 2020 **virtual booth**

- **Video presentation**

<https://app.imagina.io/app/module/152279/111092>

- **Discussion led by the Editors in Chief:** during the poster session,
Thursday 10th Dec, 13.10 - 14.10

<https://app.imagina.io/app/content/2224876/111092>

- **Presentation article** in the proceedings of the conference

<https://imagina.io/uploads/pdf/001142.pdf>

EAA Awards

Life-time achievements in acoustics

a person who has demonstrated outstanding scientific and/or industrial achievements in the field of acoustics during her/his career

Contributions to the promotion of acoustics in Europe

a person or entity whose past or recent activities in society (research, industry, teaching or politics) have contributed to elevate the interest for Acoustics in Europe

Life-time achievements in acoustics 1

Eddy Gerretsen

- Has been active since the seventies in various acoustics fields as researcher at TNO.
- Later, he focused more and more on Building Acoustics, also at the Eindhoven University of Technology.
- He has been involved actively in national and international standardization activities, primarily in the development of prediction models for sound transmission in buildings (EN 12354) and on harmonizing building acoustic performance descriptors (COST Action).
- Since his retirement in 2010, he is sharing his knowledge through the consultancy firm Level Acoustics & Vibration

Life-time achievements in acoustics

Murray Campbell

- Was born and brought up in the Highlands of Scotland.
- He studied physics at the University of Edinburgh, where he met and married his wife Patsy.
- He joined the academic staff at Edinburgh in 1972, and in 1985 founded the Musical Acoustics Research Group.
- In 2000 he was appointed Professor of Musical Acoustics.
- He is co-author of three textbooks on the acoustics of musical instruments, and former co-chair of the EAA Technical Committee on Musical Acoustics.

Contributions to the promotion of acoustics in Europe

HEAD-Genuit-Foundation

- Klaus Genuit received his PhD in 1984
- He founded HEAD acoustics GmbH 1986 which is today a leading contributor in areas of binaural signal processing, sound design and analysis, virtual reality, and telecommunication measurements.
- He is a member of various acoustics associations and participates in several working groups dealing with the standardization of measurement regulations and psychoacoustic parameters.
- Klaus Genuit is honorary professor at the RWTH Aachen University.
- In 2008, he has established the **HEAD-Genuit-Foundation to “promote science and research and to promote public health”**
- **HGF is supporting Acoustics in Europe and EAA for several years.**
