EAA SUSTAINING MEMBER

Dear Company, Institution, or Organisation,

You are supporting the National activity of your Acoustical Society, and now you can also support its **European activities** and involvements by becoming a **Sustaining Member of the EAA.**

The EAA is a non-profit organisation supporting Acoustics in Europe by all possible means:

- 2 journals (Acta Acustica and Acoustics in Practice) and one newsletter (Nuntius Acusticus)
- 3 major Conferences: Forum Acusticum, Euronoise and Euroregio + several workshops
- A multi-lingual European repository (under construction)
- A Web-based University Guide (EAA Schola)
- 8 Technical Committees (more under development)
- A Job Forum (under construction)
- And last but not least a Young Acousticians Network (YAN)

The EAA actions are based on two principles: subsidiarity and solidarity.

As Supporting Member, you can choose one of the following status:

- **Silver SM: 1 500 € / year**
 - Logo displayed in Fenestra Acustica with a link to the Company website
 - Job announcements inserted in Fenestra Acustica
- **Gold SM: 3 000 € / year**, Same as Silver + in addition
 - Logo displayed in EAA publications and in EAA Conferences
 - 5% discount on advertisement in EAA journals and exhibition in EAA conferences
- **Platinum SM: 6 000 € and more / year**, Same as gold +, in addition
 - Physical presence during specific actions like specific workshops, prizes, travel

For European Institutions, 25% of your contribution will be deduced from the due of the National Society to the EAA and 75% will be used to support common EAA actions and solidarity.

For non-European Institutions, all your contribution will support EAA actions and solidarity.

Sustaining membership must comply with subsidiarity principle: unless otherwise stated by the National Society, a Supporting Member supporting the EAA should first support and continue supporting the National Society.
